

Novelty Yarns – Core spun and Boucle yarns (once these two are conquered, anything is possible since everything is based on these). Students need to spin up slightly overspun singles (200 y or so) of something soft for the core spun. They'll need about the same length and type (overspun singles) of a 50/50 mohair blend or mohair (not kidd) or Lincoln or something with definite wave structure otherwise the loops collapse. They'll need 3 sewing thread bobbins (just regular stuff for sewing), and a lazy kate (or a shoe box with knitting needles). I'll start with the core spun (easy to catch onto) and then move to boucle. Students will need to bring their own wheels and spun singles. Don't forget the humor.
